Slide Builder

Slide Builder 4

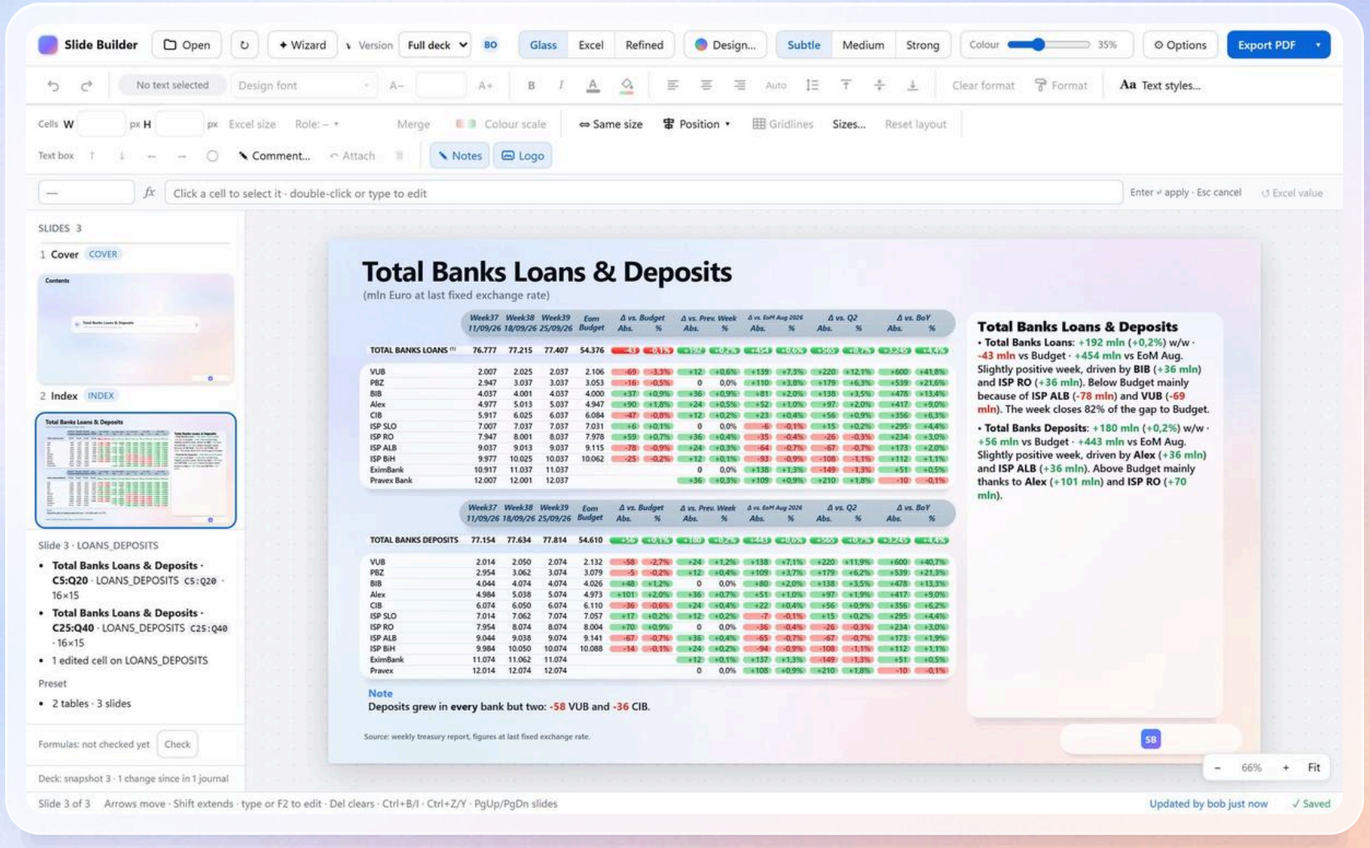

From the workbook to the deck – together, in minutes.

16 October 2026

For the team

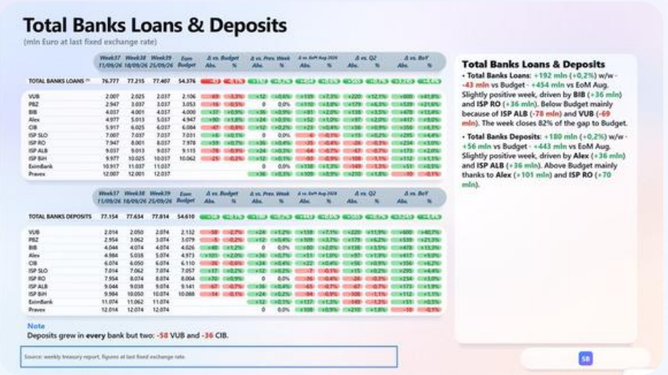

Excel tables in, slides out

- **Open** a workbook from the shared folder.
- **Pick** the tables – a wizard does most of it.
- **Polish** them on the slide, like in Excel.
- **Export** the deck as a PDF.
- New figures in the workbook? The slides follow.

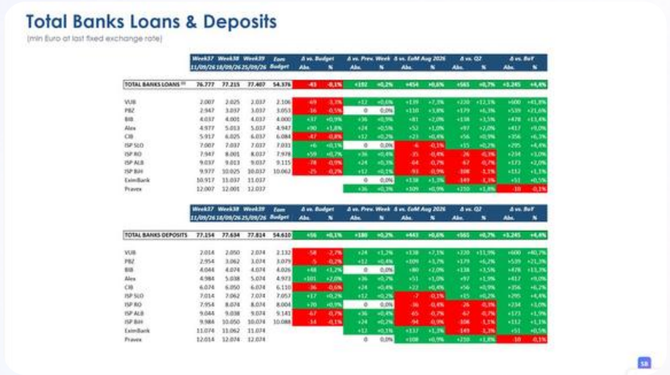

One deck, three looks

Switch with one click. Each look keeps its own sizes.

Glass

Glass cards and colour capsules on a soft background.

Excel

Exactly as the workbook formats it.

Refined

Excel's tables, plus text boxes and comments.

A new deck in four steps

The wizard opens by itself the first time you open a workbook.

1

Sheets

Tick the sheets you need.

2

Tables

Drag across a table, or take the ones marked with "x".

3

Slides

Put tables on slides; add a cover and an index.

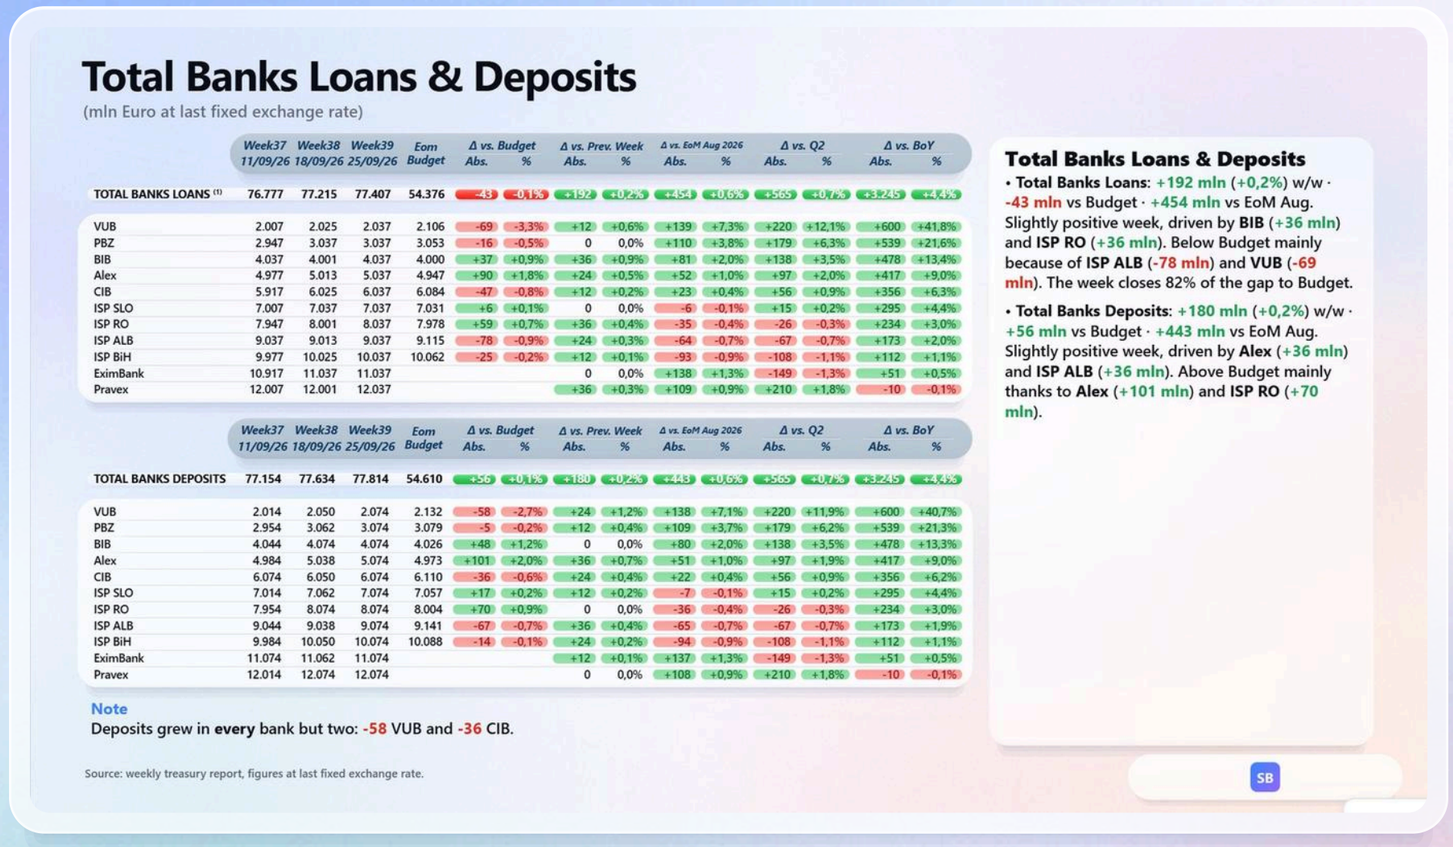

4

Versions

The same deck with some figures hidden, for another audience.

Edit on the slide, like in Excel

Total Banks Loans & Deposits

Note
Deposits grew in **every** bank but two: **-58** VUB and **-36** CIB.

Source: weekly treasury report, figures at last fixed exchange rate.

Total Banks Loans & Deposits

• **Total Banks Loans**: **+192 mln** (**+0,2%**) w/w · **-43 mln** vs Budget · **+454 mln** vs EoM Aug. Slightly positive week, driven by **BIB** (**+36 mln**) and **ISP RO** (**+36 mln**). Below Budget mainly because of **ISP ALB** (**-78 mln**) and **VUB** (**-69 mln**). The week closes 82% of the gap to Budget.

• **Total Banks Deposits**: **+180 mln** (**+0,2%**) w/w · **+56 mln** vs Budget · **+443 mln** vs EoM Aug. Slightly positive week, driven by **Alex** (**+36 mln**) and **ISP ALB** (**+36 mln**). Above Budget mainly thanks to **Alex** (**+101 mln**) and **ISP RO** (**+70 mln**).

SB

- Click a cell, type, **bold** it, colour it.
- Resize and move tables by dragging.
- Add a text box or a notes line.
- Colour scales and highlights in one click.
- Undo takes back **your** changes only.

The workbook itself is never changed.

A comment that writes itself

Slide Builder reads the table and writes the analyst's summary – and rewrites it when the figures change.

Total Banks Loans: +192 mln (+0,2%) w/w · -43 mln vs Budget · +454 mln vs EoM Aug. Slightly positive week, driven by **BIB** (+36 mln) and **ISP RO** (+36 mln). Below Budget mainly because of **ISP ALB** (-78 mln) and **VUB** (-69 mln).

a 20-slide Glass PDF

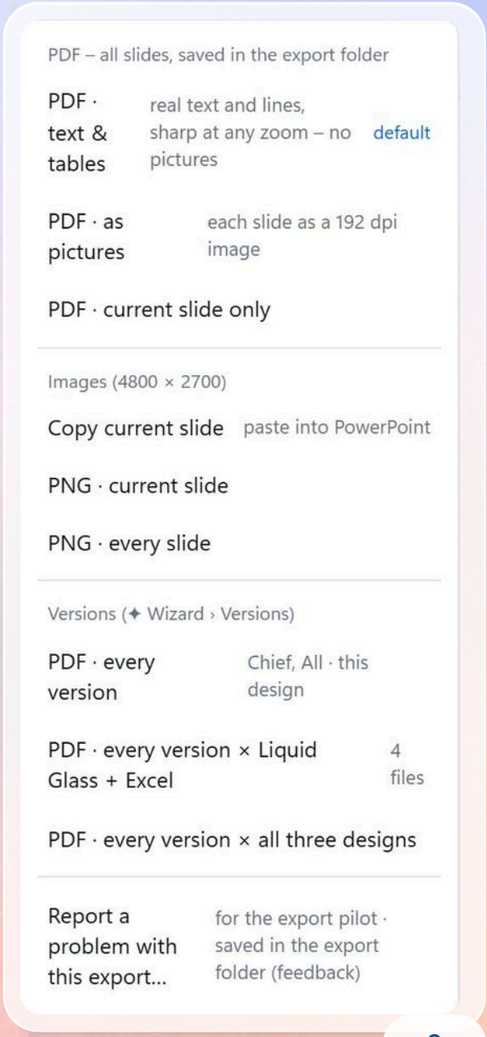

about 1.3 MB, sharp at any zoom

1 click

every version × design

one PDF each, named for you

- PDF, PNG pictures, or copy the slide into PowerPoint.
- Files land in the **export** folder.

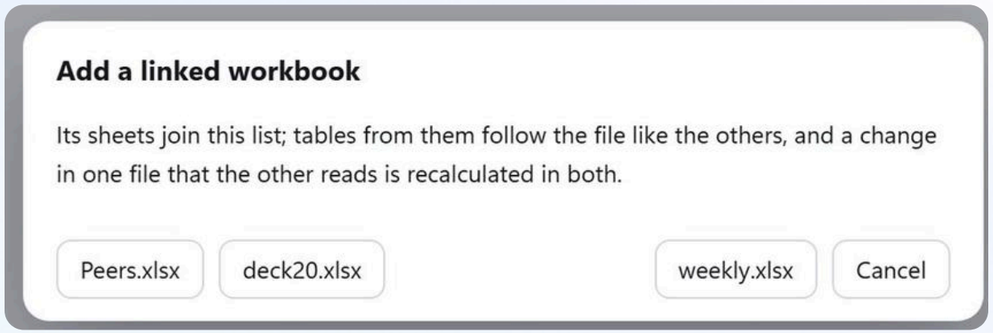

Measured on the 20-slide test deck

Coming with 4.2

Several workbooks, one deck

Linked workbooks

Take tables from other workbooks of the folder into the same deck.

The formula check

One click tells you whether every formula still gives Excel's own result.

Built and tested; not released yet

Safe by design

Built for our locked-down PCs and our shared folder.

Your workbook stays yours

Slide Builder only reads it. Every change is stored beside it.

Nothing to install

Runs on our standard PCs with Python, from the shared folder.

Nothing is lost

Every change is kept until it is safely on the share; backups are automatic.

Get started today

- Double-click **Start Slide Builder** on your desktop.
- Click **Open** and pick your workbook.
- Follow the wizard – then export.
